Professional Summary

Associate Software Engineer with experience building and deploying full-stack web applications using React.js, Node.js, and NestJS. Skilled in REST APIs, MongoDB, MySQL, Docker, AWS, and CI/CD practices, with a strong interest in cloud technologies and DevOps.

WORK EXPERIENCE

Associate Software Engineer

Feb 2026 – Present

Eyerax Technologies (Pvt) Ltd.

- Developed and enhanced production features using Node.js, React.js, and NestJS.
- Deployed and maintained applications on VPS infrastructure.
- Collaborated with developers and QA engineers in an Agile environment to deliver production-ready features.
- Worked with Git-based workflows and participated in team code reviews.

Intern Software Engineer

Aug 2025 – Feb 2026

Eyerax Technologies (Pvt) Ltd.

- Contributed to the development of an ERP Logistics System using microservices architecture.
- Assisted in coding, testing, debugging, and feature implementation.
- Worked with RESTful APIs to enable communication between microservices.
- Contributed to Agile development processes and code reviews.

Education

BSc (Hons) in Software Engineering

May 2023 – Present

ICBT Campus – Cardiff Metropolitan University, Kandy, Sri Lanka

- Currently pursuing the final year (Top-Up) of the BSc (Hons) in Software Engineering.
- Successfully completed the Higher Diploma in Computing and Software Engineering.

Diploma in Information Technology

May 2022 – Nov 2022

ESOFT Metro Campus, Ampara, Sri Lanka

- Covered programming fundamentals, networking, and IT systems.

Diploma in English Language

May 2022– Nov 2022

ESOFT Metro Campus, Ampara, Sri Lanka

- Improved English proficiency for academic and professional communication.

Projects

Smart Agriculture Management | Full Stack Developer Jun 2026 – Present

Technologies: React.js, NestJS, MySQL, Redis, Docker, VPS, AI Integration, RBAC [GitHub](#)

Developing an AI-powered agriculture management platform using React.js, NestJS, MySQL, and Redis. Designing scalable backend services with RBAC, REST APIs, and Docker-based deployments while applying OOP, SOLID principles, and database design best practices.

Paws Care Veterinary Appointment Platform | Full Stack Developer Aug 2025 – Nov 2025

Technologies: MongoDB, Express.js, React.js, Node.js, Framer Motion, Zod Validation [GitHub](#)

Built a veterinary appointment and doctor scheduling platform with doctor profile management, appointment booking functionality, secure form validation, responsive UI development, and backend API integration.

Hotel Room Booking System | Full Stack Developer Feb 2025 – Apr 2025

Technologies: MongoDB, Express.js, React.js, Node.js, JWT, NodeMailer [GitHub](#)

Created a hotel booking platform with room reservation functionality, email verification, secure authentication, and an administrative dashboard for booking management and analytics.

Cosmetic E-Commerce Website | Full Stack Developer Dec 2024 – Feb 2025

Technologies: MongoDB, Express.js, React.js, Node.js, JWT, Google OAuth [GitHub](#)

Developed a full-stack e-commerce platform with secure authentication, shopping cart functionality, inventory management, order processing, and an administrative dashboard.

Certifications

- AWS Developer Essential (2025)
- Docker Foundation Professional (2025)
- DevOps Foundations (2025)
- Linux Command Line Proficiency (2025)

Technical Skills

- Frontend: React.js, HTML5, CSS3, Tailwind CSS, Framer Motion
- Backend: Node.js, Express.js, NestJS, REST APIs, JWT Authentication, RBAC, Zod Validation
- Databases: MongoDB, MySQL, Redis
- Cloud & DevOps: AWS EC2, Docker, Linux, VPS Deployment, CI/CD
- Tools: Git, GitHub, Postman, Vercel, Render
- Testing: API Testing, Debugging
- Programming Languages: JavaScript, TypeScript, Java
- Software Engineering: SOLID Principles, Design Patterns, System Design Fundamentals
